MOLTO LUCE®

# MAGNETICS

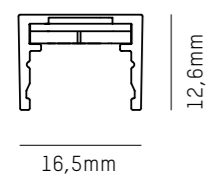

Versetzen oder einfach nur den Strahlerkopf verstellen, die einfache Magnetbefestigung ermöglicht ein schnelles Umgestalten der Komponenten. Zudem sind alle Lichteinsätze verpolungssicher und können bequem auch beidseitig in die Schiene eingesetzt werden. Diverse Lichteinsätze in unterschiedlichen Längen, sowie die Strahler in drei Größen, bieten eine absolut flächenbündig in der Schiene sitzende lineare Grundbeleuchtung mit Akzentuierung. Nur ein Handgriff und jedes beliebige Objekt ist perfekt in Szene gesetzt. Design: INHOUSE

Move or simply adjust the spotlight head – the straightforward magnetic fixture ensures fast rearrangement of the components. What's more, all luminaire inserts are protected against wrong polarity and can be easily fitted on both sides of the track. Various light inserts of different lengths as well as spotlights in three sizes offer linear basic lighting with accenting, which fits absolutely flush with the track. Only one movement, and any object can be perfectly presented. Design: INHOUSE
